Managing Director of FiltaFry Europe, Jos van Aalst, opens the new headquarters in Ulft (NL)

Following the acquisition of FiltaFry Deutschland by the Filta Group, the mobile full service provider in fryer and cooking oil management is expanding its European business. "The new headquarters and the new office and storage facilities mean that finally we have a central location where all aspects of the business for Europe converge. This makes our everyday work as well as our processes considerably easier", says Managing Director Jos van Aalst.

"A major advantage here is the proximity to Germany and Austria, where currently nine franchisees of these unique fryer services are operational on the road. The Netherlands is also attractive as a central location for countries such as France or regions like Scandinavia." Aside from sales, administration and use as a central storage facility, in future van Aalst plans to conduct partner training in Ulft and gradually expand the team. Nico Slutter (59) has now assumed the role of Finance and Office Manager at the company, having previously worked as a tax consultant.

About FiltaFry:

FiltaFry—full-service mobile fryer management – was founded in 1996 in the UK and operates on a franchise basis. Today FiltaFry is established in 14 countries. In 2018 FiltaFry opened its European headquarters in Ulfst, Netherlands with Jos van Aalst as FiltaFry Europe's Managing Director.

This unique concept consists of filtering and cleaning cooking oil and on-site fryer cleaning including the removal and professional disposal of waste oil. Upon request, FiltaFry delivers fresh oil, fills the fryers and offers numerous additional services. Customers include restaurants and snack bars, hotels, caterers, sports venues, leisure parks, cafeterias, and canteens among others.
